Subject field work next week

Hi Sharon,

Dan Jablonski will be at the site next week for the pumping test; he is planning on Tuesday - step test, and Wednesday - constant rate test. Please update Dan on the schedule. Also, we would like to get the recorded (electronic and manual) data when available after the test.

FYI - I will be out of the office on Monday. Please let me know if you have any questions.
Thank you,

Tom
